

Community Impact Assessments (CIA) State of the Practice Survey

**Conducted by the TRB Subcommittee
on Community Impact Assessment**

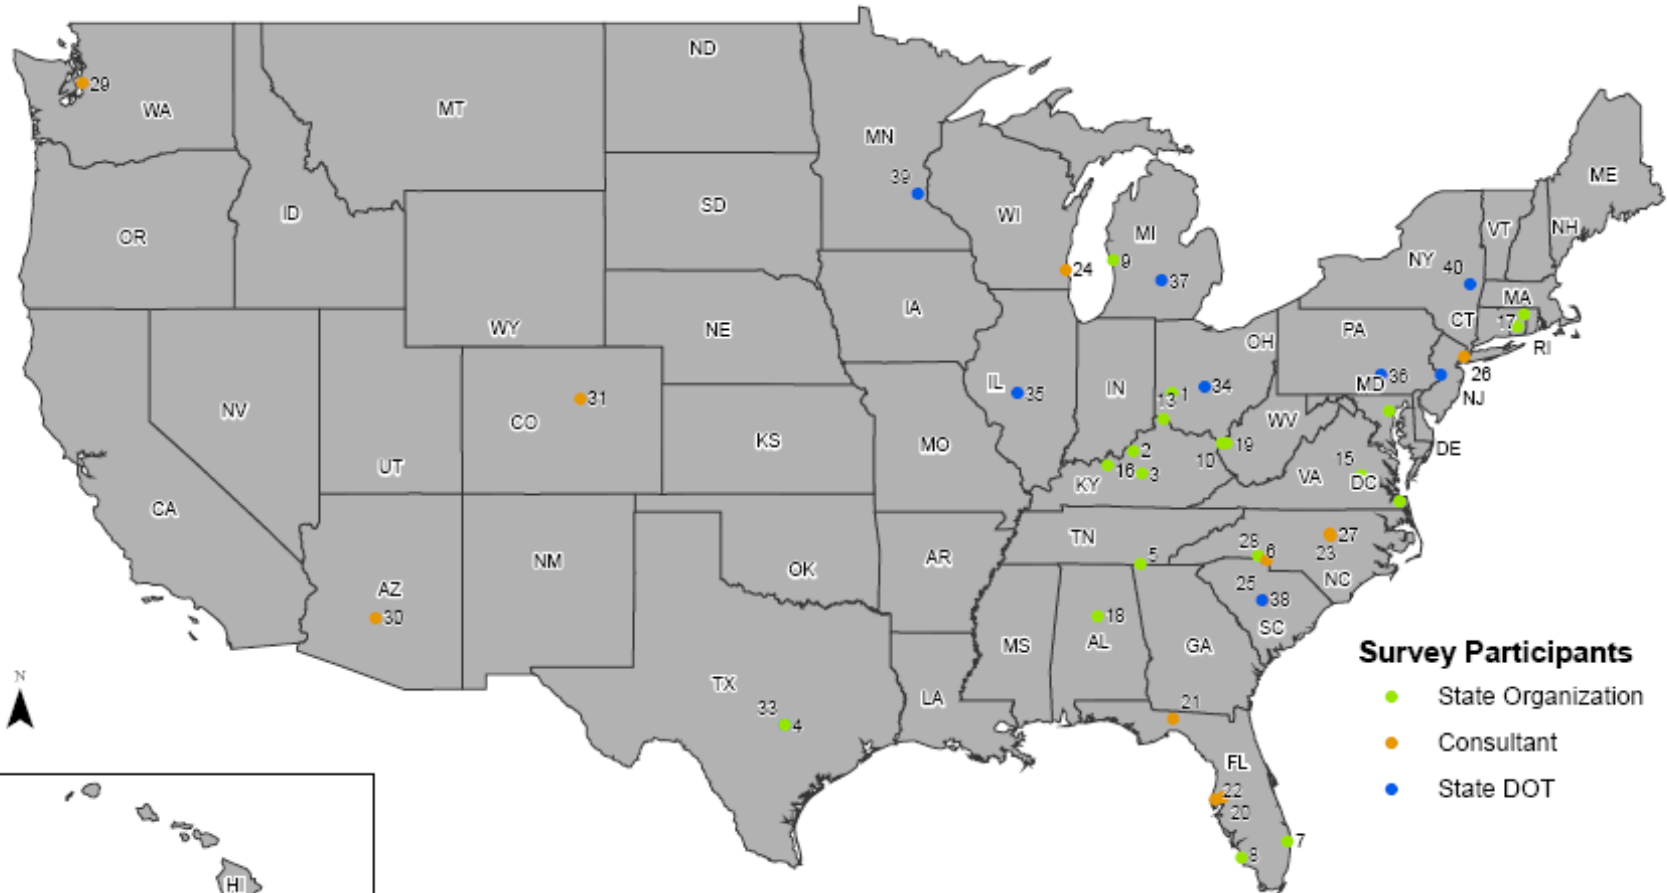

**Update on the Survey
September 13, 2016**

What is a Community Impact Assessment (CIA)?

- An iterative process to **evaluate the effects** of a transportation action on *a community and its quality of life*.
- Sometimes referred to as Socio-economic Analysis or Community Characteristics Inventories.
- Documents the *current and anticipated human and natural environment* of a geographic area with and without the action
- Its information is used *continuously* in the planning and project development process to mold the preferred alternative or action.
- Should include all items of importance to **people**, such as
 - mobility,
 - safety,
 - employment effects,
 - effects on the community economy
 - relocation,
 - isolation,
 - mental and physical health,
 - and other community issues.
